CT'S TOM VOLDRICH RECEIVES 2009 ENGINEERING EXCELLENCE AWARD FROM OWEA

Tom Voldrich is presented with the 2009 Engineering Excellence Award at OWEA's Annual Conference.

Willoughby, Ohio - Thomas E. Voldrich, P.E., Director of CT Consultants' Environmental Division was the recent recipient of the Ohio Water Environment Association's (OWEA) 2009 Engineering Excellence Award. Mr. Voldrich served as the Project Manager and Lead Design Engineer for the expansion of the McFarland Creek Wastewater Treatment Plant in Geauga County utilizing Membrane Bioreactor (MBR) filtration technology.

His design of this facility successfully demonstrated the cost effectiveness of transforming existing conventional plants into modern MBR facilities. The project addressed the unique aspect of introducing advanced treatment technology into an existing facility to increase treatment capacity while reducing environmental impacts.

Some of the many benefits include the reduction in pollutants, less overall operation and maintenance costs, and a reduction in residual solids production by over 30%.

About CT Consultants

CT Consultants is an Ohio based engineering, architecture, land surveying and construction services firm which has been providing municipal engineering services for over 85 years. CT currently has over 130 professionals in six Ohio offices including Akron, Columbus, Independence, North Canton, Willoughby and Youngstown.
