CT Consultants Adds Ecological Expertise to Growing Service Capabilities

For Immediate Release

CT Consultants, a growing consulting engineering firm that has expanded our talent by nearly 175% in the last five years, announces that the firm now offers added expertise in Ecological Services. With this added expertise, CT can guide clients through the regulatory compliance required by federal, state, and local regulations for surface waters, including wetlands.

“CT’s staff of accomplished professionals enable our clients to receive comprehensive services from project idea through ribbon cutting. Clients now receive the added benefit of ecological services from an organization they’ve come to trust to deliver an outstanding project experience” says CT Vice President, Diane Oress, PE.

Carrie Ricker, joining CT as Director of Ecological Services adds, “Our ecological team is excited to join CT Consultants and looks forward to enhancing the firm’s already strong reputation for excellent problem solving and client solutions through ecological guidance.”

CT’s ecological services are staffed by a team of educated and highly trained experts in environmental science and water and ecological resources. As specialists in wetland and riparian management this group has successfully completed over 2500 projects.

The Ecological Services team provides client solutions for:

- Wetland & Stream Determinations/Delineations
- Endangered Species (Indiana Bat, Northern Long Eared Bat, Kirtland Warbler, and Fresh Water Mussels) and Habitat Assessment
- SHPO Investigations
- CWA 401/404 Wetland Impact Permitting
- USACE Section 10 Permitting
- USACE Dredging Permitting Assistance
- Mitigation & Monitoring
- General ecological assistance
